

Shuffle the deck and start with placing the first card in the centre. Place the first round of cards in the same position and order as the diagram (from 1- 12). Repeat this two more times until each stack has three cards - inclusive of the centre stack.

Each stack will enlighten you on the list below the heading number. e.g., 7: your cards will talk about your love life, current friends and the type of relationship you have.

36 Card Circle *spread*
